PROFILE SUMMARY

MERN Stack Developer with a passion for building dynamic and scalable web applications.

- Frontend Developer with a strong foundation in the MERN stack, building responsive and dynamic web applications using React.js, JavaScript, HTML, and CSS
- Skilled in RESTful API integration, debugging, performance optimization, and best coding practices, with knowledge of Node.js, Express.js, and MongoDB

EXPERIENCE

MERN Stack Intern at Ducat IT School ***(Sept 2024-March 2025)***

- Completed intensive, hands-on training in MERN stack development, focusing on both frontend and backend technologies.
- Built and deployed multiple full-stack web applications using MongoDB, Express.js, React.js, and Node.js.
- Developed RESTful APIs, implemented JWT-based authentication, and worked with Redux for efficient state management.
- Collaborated in an Agile environment, participating in sprint reviews and peer code evaluations.
- Gained expertise in debugging, optimization, and deployment using GitHub, Postman, and Vercel.

INTERN at S O Infotech ***(March 2025-Sept 2025)***

- Contributed to the development of a **full-fledged e-commerce website** using the **MERN stack**.
- Designed and implemented **responsive UI components** in React.js for product pages, shopping cart, and checkout modules.
- Integrated **secure backend APIs** for product management, authentication, and order tracking using Node.js and Express.js.
- Worked closely with senior developers to enhance performance and improve **database efficiency** using MongoDB.
- Collaborated with the testing and deployment teams to ensure smooth functionality and scalability of the project.

ASSOCIATE at Capline Services ***(Nov2025- Present)***

- Managed end-to-end operations for US client accounts, including data verification, billing workflows, and accounts receivable follow-ups using Eaglesoft software.
- Analysed and resolved claim discrepancies and denial issues, reducing turnaround time and improving reimbursement
- efficiency while maintaining SLA compliance.
- Built and maintained operational dashboards and performance reports using MS Excel (Pivot Tables, XLOOKUP) and
- Google Sheets to track team KPIs and productivity metrics.

PROJECTS

E-commerce Website Using MERN Stack

Tools: MongoDB, Express.js, React.js, Node.js, Redux, RESTful APIs, JWT Authentication

An end-to-end e-commerce platform designed to provide users with a seamless online shopping experience, including features for browsing products, managing carts, and processing orders.

- Designed and developed the **front-end** using **React.js** and **Redux**, delivering a responsive and user-friendly interface.
- Built robust **back-end APIs** with **Node.js** and **Express.js**, enabling efficient handling of user authentication, product management, and order processing.
- Integrated **MongoDB** as the database to store and manage product data, user profiles, and order history, ensuring scalability and reliability.
- Implemented **JWT-based authentication** and secure login mechanisms to protect user accounts and sensitive data.
- Developed dynamic product listing pages, a shopping cart system, and a checkout workflow with secure payment gateway integration.

Personal Portfolio Website

Tools: React.js, CSS, HTML, Bootstrap

A responsive and visually captivating personal portfolio website designed to showcase professional skills, projects, and achievements effectively.

- Designed and developed an interactive **front-end** using **React.js**, ensuring a modern and responsive user interface.
- Crafted visually appealing layouts with **HTML**, **CSS**, and **Bootstrap**, prioritizing a clean and professional design.
- Implemented animations and transitions to enhance user engagement and interactivity.
- Built dynamic sections, including project showcases, an about page, and a contact form, to highlight key information.
- Ensured cross-browser compatibility and responsiveness across a wide range of devices.
- Optimized performance by following best practices in frontend development and adhering to W3C standards.

SKILLS

- C++, JavaScript, Java, HTML, CSS | React.js, Node.js, Express.js, jQuery | MongoDB, MySQL | REST APIs | Git, GitHub | Data Structures & Algorithms, OOP, Computer Networks |JIRA |Manual Testing, Functional Testing, Regression Testing, API Testing, SDLC, STLC, Test Case Design, Defect Reporting

EDUCATION

Bachelor of Technology (B.Tech.) - Computer Science and Engineering
IMS Engineering College, Ghaziabad
July 2019 - June 2023
